KNOVIO VIDEO ENHANCEMENT SUITE FOR BRIGHTCOVE VIDEOCLOUD

KNOVIO VIDEO LEARNING SUITE

The **Knovio Video Learning Suite** is designed to help training and L&D professionals enhance video learning and deliver engaging online programs that increase viewer engagement and participation while also measuring overall performance and knowledge retention. Use the Suite to enhance employee on-boarding programs, certify compliance training, or deliver recurring benefits or product training.

Features that transform the learning experience:

- Synchronized video & slides
- Recorded or webcam video sources
- Patented analytics and reports
- Interactive video players
- Viewing across all devices
- Integrations with Learning Management Systems
- Downloadable supplemental content
- Chapter navigation
- Embed quizzes and feedback surveys
- Issue certifications for course completion
- Custom Training portals with branded links
- Use within Brightcove Galleries, Video Cloud or Knovio Custom Showcases

KNOVIO MULTIMEDIA LIVECASTING SUITE

The **Knovio Multimedia Livecasting Suite** makes it incredibly easy to produce live streaming events with an engaging, interactive twist. Advanced features transform live video into a multimedia experience with live video synchronized to slides, NeverLate™ navigation, real-time zoom control, chapterized pause-and-review, detailed viewer-level analytics, and near instant on-demand archives with the same link to every Brightcove stream.

Features that revolutionize the live streaming experience:

- Set-up in minutes right from your computer
- Synchronized video & slides in real-time
- Track event performance and individual engagement with patented analytics
- Live Q & A
- Interactive multimedia video players
- Update slides on the fly
- View content across all devices
- Downloadable materials for every session
- Control content access with guestlists
- Register attendees with guestbooks
- Near real-time on-demand archives
- Use within Brightcove Galleries and Video Cloud

KNOVIO CONFERENCES & EVENTS SUITE

The **Knovio Conference & Event Suite** is designed to turn live conference and events into interactive, multimedia on-demand content. With registration pages, monetization options, and detailed engagement analytics, you'll know to the detail who views your content and how well it performs. Use the Suite to extend the life of your live events, curate keynotes and session breakouts, and see a better return on your events.

Features that completes the conference experience:

- Synchronized video & slides for conference sessions
- Track engagement with patented analytics
- Synchronize animations, images, video clips
- Interactive multimedia video players
- View content across all devices
- Monetize content*
- Live stream premium content*
- Downloadable materials for every session
- Control content access with guestbooks and guestlists
- Branded conference microsites with multi-level navigation to share conference content
- Use within Brightcove Galleries and Video Cloud
